PROFILE

I'm a Software Engineer who is passionate about creative problem-solving. Prior to architecting in the virtual realm, I was a designer of the physically built environment. Most recently, I co-created Tailslide, an open-source feature flag framework for easier code deployment with automated failure protection.

PROJECTS

Tailslide, *Co-Creator*   June 2022 – August 2022

An open-source feature flag framework for easier code deployment with automated failure protection.

- Collaborated daily with a small team of engineers across two different countries (USA & CA)
- Prototyped a communication system using NATS JetStream (JavaScript, Golang)
- Spearheaded the creation of documentation for Tailslide components
- Built an application for managing feature flags (JavaScript, Express, PostgreSQL, React, Redux)
- Developed a library used to integrate Tailslide into user microservices (JavaScript)
- Worked on a node application used to implement circuit breaking functionality into Tailslide (JavaScript, Redis Timeseries Database)
- Authored Tailslide's case study: https://tailslide-io.github.io/
- Gave a live video presentation/lecture on Tailslide

PROFESSIONAL EXPERIENCE

Senior Production Coordinator/Architectural Staff,   February 2019 – June 2021
Ware Malcomb

- Served as the BIM Lead for NYC Architecture team (provided training on computer programs used)
- Selected to be part of a company-wide Innovation focus group centered around using the pyRevit API to automate Revit Workflows (brainstorming phase only)
- Used programs such as Revit, AutoCad, and Adobe Illustrator/Photoshop to create Architectural Documents

---

SKILLS

Back-End	**Front-End**	**Tooling**
Node.js, Express, PostgreSQL, RESTful APIs, MongoDB	*JavaScript, HTML/CSS, React/Redux*	*Git/GitHub, NATS, Docusaurus, DigitalOcean Droplets, AWS cloud9, Heroku*

EDUCATION

Software Engineering, *Launch School*   August 2020 – August 2022 | Remote

A mastery-based program focused on Software Engineering Fundamentals and Full-Stack Web Development

- Developed web applications with technologies such as JavaScript, Node.js, PostgreSQL, HTML & CSS

Master of Architecture, Minor in Urban Planning,   2010 – 2016 | Manhattan, KS
Kansas State University
